requesting sanction to the Revised Estimate of RS 11110 for a well at the Extension in the town of Hiriyur.

Note

The above papers were submitted to the Asst Secy with the Dewan as called for by him.

2 papers regarding the removal of the New Town of Hiriyur to a healthier spot with suitable arrangements for water supply and drainage were pending before the Dewan till 8th September 1902. As per Dewan's orders dated 8th September 1902, further report has been called for by the Revenue Branch in docket no R 1241 dated 20th Sept 1902, para 3 of which runs as follows "Whether the wells that were being sunk near the old Town have been completed?"

The above papers regarding the estimate for RS 11110, which

The well seems to be in the Extension and the work probably continued. I think the draft may be passed & issued.

The Dewan through the 2nd Councillor

I am afraid the [illegible] well was not really needed. ~~[illegible]~~ The work however seems to have already been partly carried out. It is too late now to refer to the Budget of 1900/1901 or 1901/02 &c.

Sanction please enquire how much of the cost has already been charged to the accounts of those two years, & from what source in the Budget of the current year (1902/03) the balance is proposed to be met -

If the funds required are not forthcoming in the sanctioned Budget a Supplemental grant has to be sanctioned from the balance at the credit of the Municipality -

The Secretary to the
Government of Mysore
General and Revenue
Department

Sir

I have the honor to
request sanction a
revised estimate for Rs 140/- for
making a well in compound at the
Dispensary
site selected near the
building and to have such to
Government of the Mysore Princes

89 and also on the portion originally
set apart for camping ground about
which enquiries have been solicited on
a separate reference (vide my letter
No. 802 dated 3d April 1907) About
30 houses have already sprung up
in this new locality.

2. In view to afford water
Convenience to the inhabitants
residing at this place a well was
proposed to be sunk at Government
Cost. Thereupon an estimate for
Rs 329/ was as an experimental measu
sanctioned by me from Municipal
funds for the purpose in July last
and the work undertaken.

3 In the original estimate
provision was made for blasting
rock by means of dynamite from
the 6th line but in the course of

of the excavation of the
was considered necessary even to the first
three lines. The work was accordingly
executed and pushed on to completion.
It however the blasting of rock
could not be carried out at the
original rates higher rates had
to be promised.

4. The well has now been sunk
to a depth of 29 feet and water
appeared but as the supply is found
to be insufficient it is deemed
essential to deepen the well to a
further depth of 6 feet; Commencing
with one of 6 lines or 36 feet deep.
This and other unforeseen works
are necessitated the revision of
the estimate.

5. I beg to add that our
the estimated amount a
sum of Rs 720 will be appropriated
in current year from the balance
of

of Rs 726/ available out of the total grant of Rs 800/ sanctioned under Public Works as per revised Budget and the balance will be met from the ensuing year's budget grant.

6. The original estimate is also submitted for cancellation.
